

# Inland Southern California RIVERSIDE COUNTY

## A COMMUNITY OF INNOVATION

With achievements like the creation of the California Navel Orange, Riverside County's innovative spirit continues to thrive. Today, that legacy is supported by a strong ecosystem designed to fuel new ideas and business growth. The County is home to nine innovation centers that serve as launchpads for entrepreneurs and startups, offering subsidized space, mentorship, and access to essential resources. By fostering collaboration between public and private sectors and providing financial, strategic, and technical assistance, Riverside County is building a resilient economy and cultivating a dynamic community of visionaries, entrepreneurs, and industry leaders.

## VIBRANT ECONOMY, THRIVING INDUSTRIES

Riverside County's diverse economy - spanning tourism in Temecula Valley Wine Country and Greater Palm Springs to key sectors such as agtech, health tech, life sciences, advanced mobility and clean transportation, healthcare, aerospace, and defense - continues to attract industry leaders. Companies like KTM chose Riverside County for their North American headquarters, while Ohmio, a New Zealand-based autonomous vehicle manufacturer, selected Riverside

County for its U.S. operations, further cementing our position as a destination for innovation and industry leadership.

## LEADING THE WAY IN TECHNOLOGY & CLEAN ENERGY

Riverside County excels in clean energy, health tech, life sciences, ag tech, and climate tech - supported by nine innovation centers and the University of California, Riverside, the region's leading R&D institution - cementing its role as a hub for innovation.

*A Hub for Business and Innovation*
